

CCIE Voice Theory

The Written Exam

The CCIE Voice certification demands comprehensive know-how and practical experience about voice products and the conception, configuration, and operation of complex end-to-end voice networks. A CCIE Voice is able to perform detailed and systematic troubleshooting in the case of voice transmission problems. The CCIE certification requires a theory exam (CCIE Voice Written Exam 350-030) and a practical exam in the Cisco lab.

Course Contents

- Preparation for the CCIE Voice certification
- Purposeful and efficient presentation of the topics relevant for the theory test. The contents of the course will be specifically adapted to the requirements of the written exam.

In contrast to common seminars, this course does not focus on the imparting of general, wide-spread know-how. Instead, the students will be able to close existing know-how gaps with the help of an experienced CCIE and Cisco trainer.

In the CCIE Voice workshop, selected information material about the relevant topics and a sample test will be provided.

Target Group

This CCIE course was specifically created as a preparation for the CCIE Voice Written Exam and therefore exclusively addresses students intending to become certified as CCIE.

Knowledge Prerequisites

The CCIE certification demands wide-ranging and profound know-how about layer-2 and layer-3 switching and routing protocols, as well as their implementation and configuration. Another prerequisite is knowledge about quality of service and voice over IP, as can be proved with a CCVP certification and appropriate practical experience. However, this know-how has to be extended by means of intensive self-studies.

Reservation and Registration

We will be glad to make a free and non-binding course reservation for you for the duration of two weeks. On www.experteach-benelux.com under *Registration*, you can conveniently make course reservations, registrations, and hotel reservations. Alternatively, call us under +31 (0)76 52 32 950.

For closed groups of participants, we can modify the course contents according to your requirements. Do not hesitate to contact us!
