

CCNA Security Exam Training

Sometimes it is difficult to apply newly obtained knowledge in a exam environment. It is different to translate the knowledge and skills into the right answer for the exam than applying it in a live network. For this target group ExperTeach and One2train offer a one-day exam preparation which can be booked via the Open Agenda.

Course Contents

During this day the teacher explains the various ways of questioning in the exam and also prepares the student for the answers that are expected from him. There is also a physical lab available and the possibility to ask questions about the practical part.

Target Group

This course is an ideal preparation for students who wish to take the CCNA Security exam.

Knowledge Prerequisites

Students must have attended the courses of the CCNA Security curriculum.

Course Objectives

At the end of the day the students are confidently going home because they know what kind of questions they can expect and how they should answer them. They also know what issues need to be addressed so their study plan can be scheduled in the most effective way.

Reservation and Registration

We will be glad to make a free and non-binding course reservation for you for the duration of two weeks. On www.experteach-benelux.com under *Registration*, you can conveniently make course reservations, registrations, and hotel reservations. Alternatively, call us under +31 (0)76 52 32 950.

For closed groups of participants, we can modify the course contents according to your requirements. Do not hesitate to contact us!
