

DESIGN

Designing for Cisco Internetwork Solutions

The Designing for Cisco Internetwork Solutions (DESIGN) Course v 2.0 is a new version. In addition to general approaches and technologies for network design, it promotes Cisco solutions in designing and implementing scalable internetworks.

Course Contents

- Applying a Methodology to Network Design
- Structuring and Modularizing the Network
- Designing Basic Campus and Data Center Networks
- Designing Remote Connectivity
- Designing IP Addressing and Selecting Routing Protocols
- Evaluating Security Solutions for the Network
- Identifying Voice Networking Considerations
- Identifying Wireless Networking Considerations
- Implementing and Operating the Network Design

In this course, each student will receive the original Cisco Systems course documentation in English language.

Target Group

This course addresses network designers, account managers, and CCDA® certification candidates.

Knowledge Prerequisites

- Cisco CCNA certification
- Recommended: SWITCH - Implementing Cisco Switched Networks

Reservation and Registration

We will be glad to make a free and non-binding course reservation for you for the duration of two weeks. On www.experteach-benelux.com under *Registration*, you can conveniently make course reservations, registrations, and hotel reservations. Alternatively, call us under +31 (0)76 52 32 950.

For closed groups of participants, we can modify the course contents according to your requirements. Do not hesitate to contact us!
